Who we are

Duro Tire has been around since 1945 and in that time, we've learned a few things about making tires. We build over 50 years of technology into each tire we make, ensuring that all of our products are designed and manufactured to the highest safety standards while still providing long life and maximum use for each application.

Durobility is the guiding principle behind everything we do. We never stop improving on our existing products, as well as expanding our product range to include the most up to date tread patterns and sizes. Duro's R&D department has a large array of engineering capabilities and we put our products through rigorous testing to ensure your safety.

In addition to our premium radial tires, Duro produces a complete range of specialty tires including bias ply trailer, ATV, motorcycle, golf cart, lawn and garden, and skid steer tires. With so many types, sizes and styles, Duro has you complete tire needs covered. Our manufacturing, sales and shipping capabilities span the globe. Duro also covers OEM and aftermarket applications and is fully capable of meeting your quality standards. All of Duro's products are designed to provide maximum performance and superior handling while strictly adhering to worldwide standards and excellent quality.

For your entire tire needs please contact our US sales office at 866-788-2060.
